Table: Projected Job Distribution by Industry Cluster for each Land Use Scenario
(All Numbers in 1,000s)

Scenario	2007	CCSCE Projections	GP2020	1-C	2-E	3-K (ABAG)	4-J	5-H	6
Driving Industries	**120.1**	**170.2**	**220.9**	**266.6**	**262.9**	**246.6**	**359.8**	**299.7**	**323.2**
High Tech Manufacturing	45.7	43.8	56.9	68.6	67.7	63.5	92.6	77.1	83.2
Miscellaneous Manufacturing	14.1	13.2	17.1	20.7	20.4	19.1	27.9	23.2	25.1
Software/Information Services	21.2	43.8	56.9	68.6	67.7	63.5	92.7	77.2	83.2
Technical/Professional Services	19.0	40.5	52.5	63.4	62.5	58.6	85.6	71.2	76.9
Visitor Services	8.6	12.3	15.9	19.2	18.9	17.8	25.9	21.6	23.3
Self Employed	11.5	16.6	21.5	25.9	25.6	24.0	35.0	29.1	31.4
Business Support Industries	**114.9**	**158.3**	**205.5**	**247.9**	**244.5**	**229.4**	**334.7**	**278.7**	**300.6**
Construction	24.5	27.9	36.2	43.7	43.1	40.4	59.0	49.1	53.0
Business Services	43.2	74.0	96.1	115.9	114.3	107.2	156.4	130.3	140.5
Financial Services	11.4	13.4	17.4	21.0	20.7	19.4	28.3	23.6	25.4
Transportation/Distribution	24.3	26.5	34.3	41.4	40.9	38.3	55.9	46.6	50.2
Self Employed	11.5	16.6	21.5	25.9	25.6	24.0	35.0	29.1	31.4
Household Support Industries	**161.0**	**241.5**	**198.6**	**201.5**	**222.6**	**233.0**	**201.5**	**222.6**	**215.6**
Civic	32.8	50.8	41.8	42.4	46.8	49.0	42.4	46.8	45.3
Health Care	20.6	45.8	37.7	38.2	42.2	44.2	38.2	42.2	40.9
Retail/Consumer Services	78.1	101.7	83.6	84.9	93.8	98.1	84.9	93.8	90.8
Education	18.1	26.6	21.9	22.2	24.5	25.7	22.2	24.5	23.7
Self Employed	11.5	16.6	13.6	13.8	15.3	16.0	13.8	15.3	14.8
Total Jobs (1,000s)	**396.0**	**570.0**	**625.0**	**716.0**	**730.0**	**709.0**	**896.0**	**801.0**	**839.5**
Total Dwelling Units (1,000s)	**308**	**487**	**391.46**	**398**	**445**	**468**	**398**	**445**	**429.35**

The above table distributes potential job growth into standard Industry Clusters using a methodology consistent with initial projects provided by CCSCE (Center for the Continuing Study of the California Economy) in support of the Envision process. The proportion of new jobs in the Household Support Industries is determined by the amount of housing growth included within the scenario. The remaining jobs for each scenario are then distributed between the Driving Industry and Business Support Industry clusters based on the proportional demand forecast by CCSCE in their initial projections.
